

ELOMDA GROUP
for Investment and Agricultural Development

COMPANY PROFILE

About Us

Elomda Group founded in 1999 based in El Beheira, Egypt.

It specialises in the cultivation packing and export of fresh fruits and vegetables. Among a wide range of other products.

Since its establishment, Elomda Group has been able to maintain its worldwide reputation through supplying its partners with unmatched product quality that exceeds expectations at very competitive prices and constantly developing new methods to diversify into new products in order to successfully penetrate optimum quality of its products.

Moreover OG is a pioneer in the agricultural innovation of its products and packing stations.

The source of our pride

Today we are proud that we carry the banner "made in Egypt" and by exporting products of ElOmda there are industrialized locally including all the agricultural crops from Vegetables and Fruits to more than sixty Country from the middle East

the European Union, and states of the Eastern Agglomerate for we depend in the export upon our products which are produced from our farms, where we possess farms for growing vegetables and fruits in numerous regions empty from the diseases and from all the obstacles of export

Consequently all these considerations lead to higher quality and productivity than other similar farms

Recruitment and Capacity Building for a Strong and Sustainable Economy

Employing workers is an integral part of our responsibility towards society and the economy. Through this role, we seek to enhance economic stability and provide opportunities, not only for workers, but also for future generations.

In this context, I am honored to contribute to employing more than 800 workers in various sectors, which reflects the effective role we play in strengthening the local economy.

Employing workers is not just about providing jobs, it also requires investing in their development and skills. In this context, I provide comprehensive training programs that aim to raise the level of efficiency and productivity of workers. These programs include specialized technical training that keeps pace with the latest developments in the field, in addition to training in soft skills such as leadership, effective communication, and problem solving.

Contribution to providing foreign currency

The economic contribution goes beyond local employment, as employing and developing this large number of workers enables us to provide high-quality services and products to the local and international market. By exporting our products and services to foreign markets, we play a pivotal role in increasing the flow of foreign currency into the country. This contributes to achieving a balance in the trade balance, supporting the value of the local currency, and enhancing the position of the national economy, and makes us real partners in building a better future for all.

OUR FACILITIES

Our Farms

we have our farms, that whose their products are completely empty from diseases and obstacles of export and in concern with cultivating fresh fruits and vegetables.

These farms are qualified to export to all countries of the world and are included in the lists of those permitted for export issued by the Egyptian government.

The farms are estimated to cover an area of 10,000 acres, producing about 200,000 tons of fresh vegetables and fruits, about %40 of which are used for export annually to all countries of the world.

Also concerning citrates we have the farms that operate by recent irrigation for citrates whose area 700 acres whose productivity 14000 ton approximately from citrates, also our policy is following at packing stations to preserve export's -products, in addition to other available for cultivating all vegetables.

Why Choess Us ?

Premium Quality: Our farms have the highest agricultural standards, ensuring fresh, flavorful products.

Sustainable Practices: We prioritize eco-friendly farming and packaging methods, helping to protect our planet while delivering exceptional produce

Global Reach: With extensive logistics expertise, we efficiently ship our products worldwide, ensuring they arrive fresh and ready to enjoy.

Custom Solutions: Whether you need bulk orders or specific varieties, we tailor our services to meet your unique needs.

Supply Chain & Logistics

Our high customer satisfaction rates at Elomda Group is due to our focus on three main elements, quality, cost and time. We achieve this through the following:

- Pre-shipment surveys
- Defined loading procedures & insured shipments
- Elomda Group Products stored at recommended temperatures
- Temperature monitoring throughout the journey
- Loading processes executed to maintain a cold chain
- Cold chain transparent and controllable
- Traceability system for produce tracking back to its plot in short timeframe
- Unique traceability codes assist in evaluating produce from different plots
- Clients advised based on traceability systems .

In addition through a proven network of agents we offer a wide service mix including freight forwarding, inland transportation, custom clearance, cold storing and distribution.

PACKING STATION

Elomda packing station commenced as a small station with one production unit.

produces 200 Ton from potatoes and onions per day, then after many years and large production units, we enabled from achieving large growth to have 2 packing station from the leading station for packing and covering in Egypt, also we do our best continuously to develop these stations through providing the most up-to-date lines of production that enable us to produce more than 1000 ton daily.
